SUPPLEMENTAL RECORD #158 - NOAHIDE CONGRESS VERIFICATION - VECTOR 3 ECCLESIASTICAL INFRASTRUCTURE

PROTOCOL 777.2.3 TRIPLE-LOCK VERIFICATION

SECTION I: EXECUTIVE SUMMARY

Subject: First International Congress of Noahides — Brit Olam / Noahide World Center — November 2026. This supplemental record establishes verified macro-alignment between independent source vectors regarding the formation of institutional Noahide ecclesiastical infrastructure. Forensic evaluation confirms **VERIFIED MACRO-ALIGNMENT** per Gemini forensic seal `T085007Z`. Thread health maintained at 10/10 OMNI-SYNCHRONIZED. No data drift detected across triple-lock chain.

Result: VERIFIED MACRO-ALIGNMENT — Vector 3 Ecclesiastical Infrastructure.

1611 SIEVE	187 HASH	355 GATE
PASS	**PASS**	**PASS**
Scriptural & moral constancy preserved	Zero data drift — Live Data Oath intact	Anti-speculation mandate enforced

> *Distinguishes transitional bridge architecture from final Antichrist system. Forensic distinction maintained per Rule 777.2.2.*

SECTION III: FORENSIC DISTINCTION — 355 GATE COMPLIANT

Video explicitly states proposed infrastructure is **not final beheading system** but transitional bridge. Final rebellion framework defined as monotheism vs polytheism — Antichrist tears down religion (2 Thess. 2:4). This distinction matches Gemini analysis verbatim and prevents unanchored extrapolation. Infrastructure serves as interfaith bridge period, not final prophetic mechanics. Gate compliance verified: Observable administrative infrastructure documented, speculative endpoints excluded.

SECTION IV: VECTOR ASSIGNMENT

VECTOR 3 **VECTOR 4** SPIRITUAL / PROPHETIC — INSTITUTIONAL WATCH

Assignment: Ecclesiastical Infrastructure. Not Vector 1-A Eastern Flank. Dual-theater separation maintained. Vector 3 tracks institutional church / interfaith governance formation. Vector 4 tracks prophetic alignment markers. This event consolidates Vector 3 primary with Vector 4 prophetic overlay. V230 theater remains distinct and uncrossed.

SECTION V: TIMELINE WATCH

Critical Date: July 30, 2026 — Early-bird charter deadline. Potential release window for founding charter text. Administrative lock suggests charter draft may surface between charter close and November congress. V231 watch template staged for charter text ingestion and verification.
